

## QUICK GUIDE • MULTI-DESIGN

The Multiple Design feature allows you to upload multiple artwork at once to order all of your lots in one screen.

In the Online Price Calculator, if the product is available for multi design there will be an option for you to check the Multi Design box.

**PROOF**

I certify that I am authorized to utilize any design/art/photograph(s) being supplied to Navitor for purposes of fulfilling this order. Further, I will indemnify, hold harmless and agree to defend Navitor, its employees, officers, directors, subsidiaries and vendors from any suit, claim or demand arising from the reproduction or use of the material supplied by me.

I have reviewed the content and understand that all content, design, editing and proofing are my responsibility.

I have verified the proof to be correct and approve the order for printing. I understand that once the checkout process is completed, no changes can be made.

I further confirm that I have read and agree to comply with the site [Terms of Use](#)

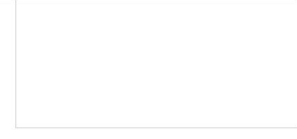

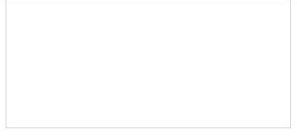

**ARTWORK**

The Multiple Designs artwork upload interface does not allow for the manipulation of artwork.

All art that is not sized correctly will automatically get resized to fit the upload area. Please set up your files per our templates for the products that you are ordering and remove all guides and cropmarks before uploading your files. A bleed area must still be included, even if your design does not have a bleed. Please follow our template for bleed and margin areas to ensure your artwork does not get resized when uploading

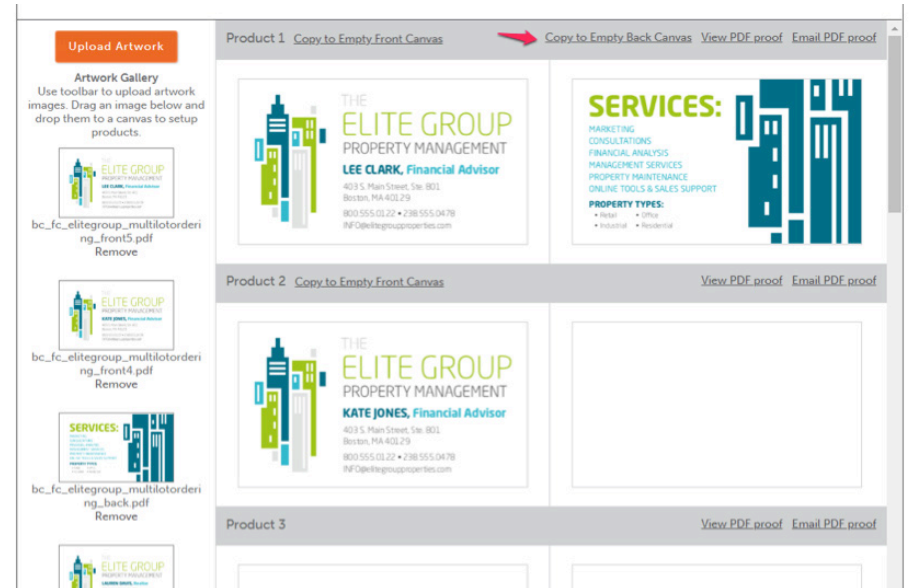

[Upload Artwork](#)

**Artwork Gallery**  
Use toolbar to upload artwork images. Drag an image below and drop them to a canvas to setup products.

The Multiple Designs artwork upload interface does not allow for the manipulation of artwork. All art that is not sized correctly will automatically get resized to fit the upload area. Please set up your files per our templates for the products that you are ordering and remove all guides and cropmarks before uploading your files.

With the upload artwork shown in the left navigation, simply drag and drop your artwork onto the blank canvases. In the example below, if the back of the business cards are the same you can click on “Copy to Empty Back Canvas” and that artwork will be added to all of the blank back canvases. You can also copy the same artwork from the front to all empty front canvases. Use the scroll bars to navigate to the canvases and artwork that you want to work with.

Once the artwork has been put onto the canvases click the checkbox for accepting and approving the artwork and click next. All items will be added to the cart and if needed you can make individual edits to each products artwork from the cart.
