

Tyvek® and TerraBoard™ Envelopes

A functional and durable envelope to protect important content

Custom DuPont™ Tyvek® Envelopes

DuPont™ Tyvek® has been around for decades and is known for its durability and functionality. Available in five sizes and made from material that is virtually indestructible, these envelopes are the most suitable package to send important items and valuable contents.

- Excellent printability, yet water and moisture resistant
- Virtually impossible to tear or puncture
- Eco-friendly and 100% recyclable, made from 10% post-industrial content
- Half the weight (or less) of paper, perfect for reducing postage on mailings
- Zip Stick® for easy self-seal

TerraBoard™ Envelopes

Brand new, these TerraBoard™ eco-friendly envelopes are the best choice for businesses looking to reduce their carbon footprint. They make a bold statement and give the impression that this is not just any mailing, it is something important that deserves attention.

- Made with 100% recycled content that can be curbside recycled
- Available in 10 pt. brown stock with Zip Stick® for easy self-seal
- Keep important contents safe
- Unique look and feel ensure mail gets opened

Credit Card Envelopes

Storing data on cards is a convenience most wouldn't give up, but protecting personal and financial information on mag-stripped and RFID chip enabled cards is vital. Our Guardian card sleeves are ideal protectors for I.D., credit, ATM and hotel key cards as well as traditional and enhanced driver's licenses.

- Long-lasting, wallet-sized mini billboards
- Shields cards from damage and scratches while protecting sensitive data
- High-impact, low-cost promotional vehicle and extension of any ad campaign
- Cut flush with double thumb cut allows easy access to contents
- Also available in standard Tyvek® 14 lb. stock
