

SAFETY Seals

Visually provide a protected experience with safety seals

Common Applications/Uses:

- ▶ Serve as an identifier for clean and ready-to-use goods and services
- ▶ Removable low-tack adhesive option allows for easy removal from rooms, doors, seats etc. with no mess left behind
- ▶ Build trust with customers by showing you have cleaned and sanitized for their protection
- ▶ Brand your to-go container and say thank you all at once
- ▶ Deter tampering of food orders by securing carry-out items, delivery food containers and bags with labels that provide a safety seal

Features
