

PIGGYBACK Labels

Double layered labels that allow a sticker to be peeled off of a main label

Common Applications/Uses:

- ▶ A piggyback label is applied and then the top layer can be removed later and applied to something else.
- ▶ Used for mailers, postcards or product labels so the end user can peel off the top layer and adhere it to a reply card in the mail, a giveaway or a sweepstakes/raffle.
- ▶ Popular for sweepstakes and promotions, merchandise returns and reply cards, product registrations, medical records, serial number ID's, etc.

Features

- Low minimums
