**The outdoor elements can be harsh. Use labels, stickers and decals with durable outdoor material that will protect messages in the elements so they can stick around.**

- Relay important safety, warning or instructional information
- Communicate service contract information and “serviced on” dates
- Durable, weather resistant stocks and laminations: films, vinyls, rough and textured surfaces
- Retro-reflective stock for high visibility in low light, dark conditions or poor weather conditions
- Sunscreen lamination can help extend the fade resistance of some inks

*\*For submersible labels that go on boats or kayaks, use a specific white vinyl stock (code KB) when ordering*
