

# Nutraceutical & Supplement Labels

An informative and creative label for each product type

## Common Applications/Uses:

- ▶ Include all FDA-required information on the primary label (contents, quantity, nutrients, ingredients, and manufacturer)
- ▶ Build trust with consumers by sharing pertinent information
- ▶ Alert consumers of active and inactive ingredients, nutritional facts and allergens
- ▶ Product security: tamper evident stocks, holographic foils and anti-counterfeiting printing
- ▶ Utilize flexible packaging for a convenient way to package vitamins or supplements so they will stay fresh for multiple uses.

## Features

- Available in 1, 2, 3 and Process Color printing
- Use a clear film for that "No label" look
- Permanent adhesive
- Consecutive numbering, variable data and barcoding options available
- Low minimums - quantities starting at just 100 labels or 500 pouches
- Roll or individual finishing choices available
- Varnishes and laminations available for brand aesthetics and moisture resistance
- Hand or machine application options
