

# ASSET & INVENTORY

## Labels

Streamline your organization's tracking processes with precision and efficiency, using labels tailored to your exact specifications.

### Common Applications/Uses:

- ▶ Manage your company's equipment, tools, and machinery with asset labels, enabling easy identification and tracking throughout their life-cycle.
- ▶ Simplify inventory control with custom inventory labels, facilitating accurate stock monitoring, replenishment, and auditing processes for increased operational efficiency.
- ▶ Integrate barcode labels into asset and inventory tracking systems, enabling swift and error-free data capture, retrieval, and analysis.
- ▶ Label valuable assets such as computers, furniture, and vehicles, ensuring swift identification and deterrence against theft or loss.
- ▶ Comply with regulatory requirements and industry standards with specialized labels to mark hazardous materials, expiration dates, or safety information on inventory items and assets.

### Features

- Include text, images, barcodes or QR codes
- Horizontal or vertical label orientation
- Roll or Individual Finishing available
- Hand or Machine-Application options
- Indoor or Outdoor Stock available
- White stock recommended for scanning barcodes and QR codes
